

# PROJECT EATS 2021 FARM SHARE MEMBERSHIP ENROLLMENT FORM

I would like to participate in Project EATS 2020 Farm Share program. By joining the Project EATS Farm Share program, I am joining a community of local residents who are supporting Project EATS' mission to sustainably produce and equitably distribute essential resources within and between our communities. I will receive a share of the Project EATS farm network harvest grown in Manhattan, the Bronx, Brooklyn and Queens.

In exchange for my support, I will receive weekly shares of the harvest from this farm network every week between May and November (exact start dates & pick-up times depend on your selected location). In addition to receiving my share of produce, I will be invited to be part of a farm community and have access to participate in events held on Project EATS farm locations.

Total Payment Amount: \$\_\_\_\_\_

## About the Project EATS Farm Share Membership:

By joining Project EATS Farm Share program, Members support an organization that uses art, urban agriculture and social enterprise to sustainably produce and equitably distribute essential resources within and between our local communities. Project EATS operates a network of 6 farm locations throughout New York city. Our produce is grown following organic farming practices and our farm network is Certified Naturally Grown. Project EATS works to hire residents of the communities we work to staff our sites. Our produce is grown outdoors in natural soil and yields may be adversely affected by extreme weather conditions, seasonal events, pest pressures and infrastructure failures. Project EATS farmers will endeavor to provide the greatest bounty possible for our farm share Members; however, members must understand that there are conditions beyond our control that could have negative impacts on our yields.

**Member responsibilities:** Members will have to pick up their produce shares at the above pick up locations and times. Members can always send someone else to pick up their share. Project EATS does not 'hold over' shares that are not claimed by closing time. All produce left over at closing time will be distributed to patients in the Pharmacy Program or to other community residents through our pantry program.

**Share availability:** Project EATS will acknowledge receipt of this membership form once submitted by email or in person. If all shares are sold out, Project EATS will return payment and add your name to our waiting list.

**Farm visits and events:** Project EATS will reach out to its farm share Members to organize farm visits and other events (as practical given COVID- 19 restrictions) during the course of the year.

**Payments:** Failure to meet payment requirements as outlined above will result in cancellation of your farm share.

[ ] I agree to all the terms described on this membership form, and I have reviewed the details regarding my Project EATS Farm Share.
